ABSTRACT

The abstract should be a complete summary of the major points of your research and must consist of one letter page with margins just like this model (including figure and table). The text should be written Spanish, English or Portuguese without indentation or line breaks, in Times New Roman, 11-pt regular, single-line spacing, fully justified. Use MS Word to write your document and use only defined styles. When you create your abstract, please make sure it is in the order: (a) Title (max. 250 characters); (b) Authors (presenter underlined); (c) Affiliation; (d) e-mail; (e) Abstract; (f) Keywords (max. 5) and (g) Acknowledgement (optional). In the case of necessity, table or figure can be included according to the example given below in Table 1 and Figure 1. Please double-check layout, spelling and syntax before submission. Open this text model, write abstract and “save as” doc format. Please use the MS Word editor. Full papers of the abstracts will become available on a CD as the conference proceedings. Thanks in advance for your cooperation.

Attention: To write symbol use insert symbol. To write italic or bold use corresponding Stile (SARX_Text_Body_Italic or SARX_Text_Body_Bold in the “Stile Menu”).

Figure 1 – A short legend on the bottom and centered, 9pt.

Table 1 – A short legend on the top and centered, 9 pt.

Keywords: *X-Ray; Fluorescence; Synchrotron*

Acknowledgement: We are grateful for the financial support of CNPq for this project.
